TOLEDO

THE CITY OF THE THREE CULTURES

THE ANCIENT CITY

Toledo, the capital of Castilla La Mancha and declared a **World Heritage Site by UNESCO** in 1986, is a unique city due to its setting, geographical surroundings, architecture, history and excellent location.

In addition to being known as “the city of the three cultures” since it was home to Christians, Jews and Muslims for centuries, what also makes it unusual is its history, art and traditions.

Over the years, Toledo **has managed to combine its historical and cultural heritage with leading-edge facilities.**

EXCELLENT FACILITIES

Toledo has a first-rate transport system that provides links to the most important cities throughout Spain.

With over **3,200 3, 4 and 5 star hotel rooms to choose from**, the city has something for everyone. Facilities range from 300-room hotels to small, charming boutique hotels.

Toledo also provides an opportunity to visit **a wide array of monuments, old country mansions and unique plazas** that complement the Congress Centre's spaces.

ONE OF A KIND ATTRACTIONS

The centuries-old blending of Christian, Jewish and Muslim culture has given Toledo an amazingly rich art and cultural legacy. The labyrinth of streets that criss-cross Toledo's old quarter is bordered by city walls with gateways that reflect the city's multicultural history, such as the ninth-century Puerta de Bisagra, the Puerta de Alfonso VI and the Puerta del Sol.

These and other gateways lead to other representative monuments close to the Convention Centre, such as the Plaza Zocodover, the Mezquita del Cristo de la Luz, the churches of San Sebastián and Santa Eulalia, the Alcázar and Toledo Cathedral, which is considered a pinnacle of Gothic architecture.

The city itself and its surroundings offer a **wide range of recreational activities for visitors, among them restaurants, nature outings, golf courses, adventure outings and team-building** pastimes to take a break from the congress and from business meetings.

TOLEDO CATHEDRAL

Celebrating an evening guided tour and enjoying a private concert, ending with a cocktail or dinner in the cloister of the 15th century Primate Cathedral, is another of the options offered by Toledo.

TAVERA'S MUSEUM

Also known as the Hospital Tavera or Hospital de Afuera, opposite the Bisagra Gate, it was built in the 16th century. Its construction in 1540 marked the beginning of the architectural and urban renewal programme that the circle of humanists who surrounded Emperor Charles V planned to adapt Toledo's image to its role as the Imperial Capital.

THE ANGEL CUSTODIO CIGARRAL

A jewel of incalculable historical value, for its chapel, for its terraces, for its gardens, for its legend, for the great variety of artists and personalities who have enjoyed this unique enclave overlooking the city of Toledo.

GALIANA'S PALACE

The Galiana Palace is located on the banks of the Tagus and has privileged views of Toledo. This ancient almunia (pleasure palace) was built in the 11th century by King Al Mamun. Since the 16th century it has received its present name, in memory of the fabulous palaces and gardens that Galiana, daughter of King Galafre and wife of Charlemagne, inhabited in the alficén of Toledo.

Puy du Fou opened its doors in Toledo in 2019 with the acclaimed night show: The Toledo Dream. In 2021 the great daytime park opened with a spectacular world to travel through history with grandiose shows, several period villages and an endless number of corners where you can taste local gastronomic products. One of the greatest attractions of the Puy du Fou España park are its grandiose shows, in which moments that have gone down in history, legendary heroes and even anecdotes of characters from everyday life are represented.

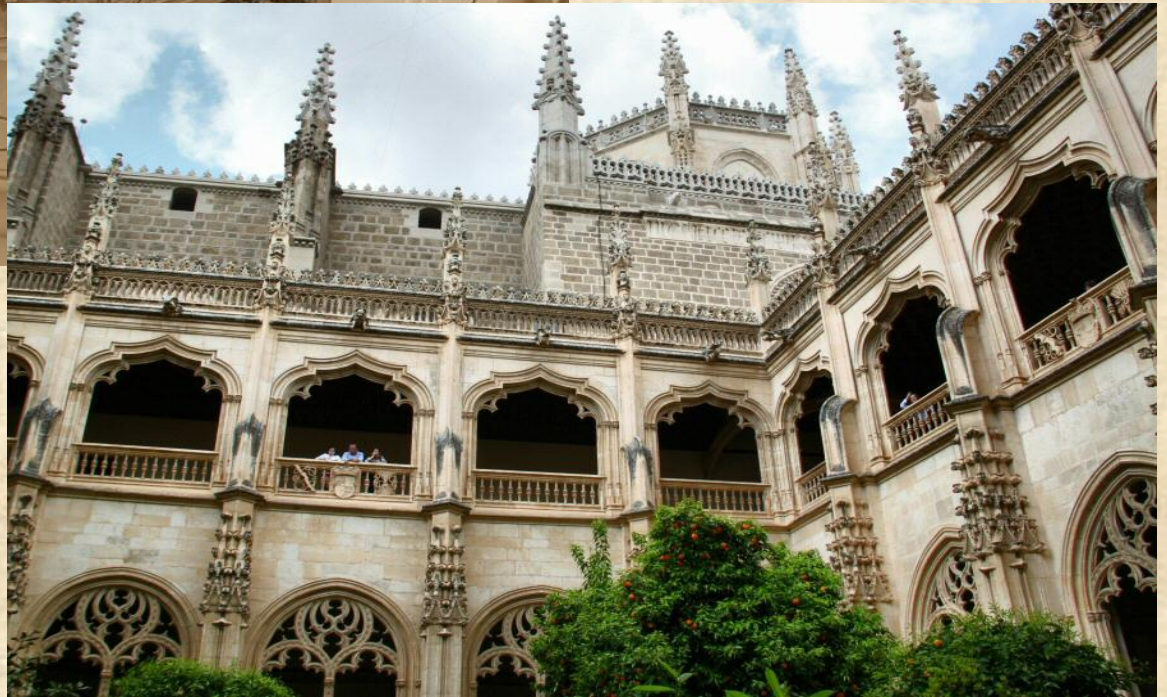

PUY DU FOU SPAIN THEME PARK

MONASTERIES, CHURCHES, PALACES...

In Toledo you will find that special and exclusive space that will make the celebration of the congress in our city unforgettable.

"Toledo... where each place contains a story, every stone a century, each monument a civilisation"
Gustavo Adolfo Bécquer, nineteenth-century Spanish poet and writer

EL GRECO

Monumental
EVENTS

"We've had the added luxury of being in Toledo's old city centre, where we've been able to relax after the day's work and continue interacting with the many people who've enjoyed this meeting"

Rafael Delgado, co-chairman of the Fourth National GESIDA Congress

Congress Centre location map

The Toledo Congress Centre is right in the city's historical centre, perched at the top of a steep rocky outcrop that is surrounded and virtually isolated by the Tajo river. It is next to the Plaza Zocodover, which was the heart of the city for much of its history.

Its aesthetics and practicality make it blend perfectly into Toledo's unique surroundings, thus making it one of the most original venues anywhere in Europe.

AUDITORIUM

DESIGNED FOR LARGE-SCALE EVENTS

Location in the Congress Centre

With a 925-seat capacity divided into three tiers, the Auditorium features leading-edge audiovisual technology and includes projection and simultaneous interpretation booths. It has entrances on three different floors providing easy, fluid access.

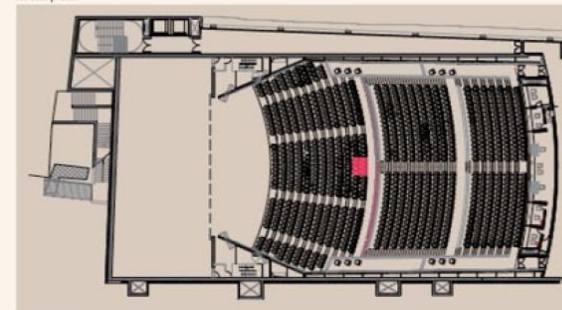

Its ample stage, 45 m² screen, technical equipment and numerous stage lighting options make the Auditorium an excellent multi-purpose space in which to hold corporate events and presentations, sophisticated stagings and cultural activities of all kinds.

The Auditorium's walls and ceilings are made up of acoustic panels with Canadian cedar finishes that provide outstanding acoustics from every angle. The flooring consists of solid hardwood oak to further enhance the Auditorium's acoustics.
